

SMARTER, STRONGER 340B PERFORMANCE WITH BLUEPEAK

Expert guidance to maximize savings, reduce audit risk, and strengthen your 340B program

BluePeak Helps You

- Minimize 340B audit risks
- Enhance operational efficiencies
- Manage ESP designations + streamline uploads
- Strengthen ongoing program oversight
- Maximize cost savings
- Build medication therapy management programs
- Train your staff + ensure competency
- Establish or optimize onsite pharmacy

WHY 340B SUPPORT MATTERS

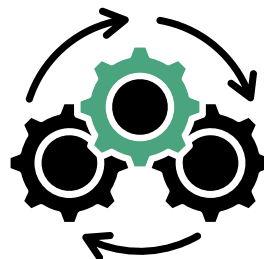

The 340B program is critical to hospitals and health systems that depend on drug cost savings to expand patient care. Yet its complexity makes compliance challenging. BluePeak blends deep 340B expertise with data driven insights to help covered entities build strong, compliant, and sustainable programs—while supporting continuous growth.

The BluePeak Difference

Compliance Strength

Deep risk review, program integrity checks, and readiness support

Operational Efficiency

Vendor optimization, pharmacy strategy, process design

Education + Empowerment

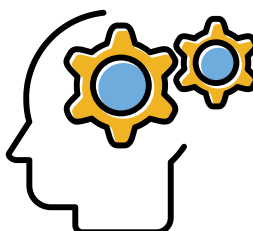

Training that builds long-term competency and internal confidence

Our Core 340B Support Services

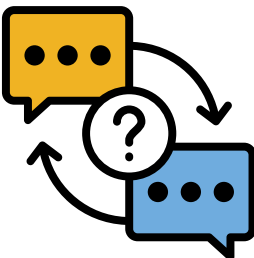

Compliance Assessments

- Full review of program elements
- Proprietary checklists for audit-ready compliance
- Actionable insights for operational corrections
- Evaluation of data handling, P\&Ps, claims workflows, education gaps

Education & Competency

- HRSA compliance training
- Diversion + duplicate discount prevention
- Role-specific training for pharmacy, clinical, and admin teams
- Supports culture of accuracy + accountability

340B Consulting + Program Development

- Eligibility analysis
- Program opportunity + risk assessment
- Contract pharmacy feasibility
- Split-billing/TPA vendor selection
- Pharmacy feasibility (in-house + specialty)
- NDC-CDM mapping
- TPA contract review
- Guidance for new program launch or optimization

HRSA 340B Mock Audits

- Detailed data reviews mirroring HRSA expectations
- Full operational and governance assessment
- Risk identification + remediation roadmap
- Audit support before, during, and after
